

## AKBARNAMA TANGGUH DIPANTARA

[dipantaratangguh@gmail.com](mailto:dipantaratangguh@gmail.com) · [My Recent Portofolio](#) · <https://www.linkedin.com/in/tangguhdiptantara/>

---

I am an Undergraduate Student in Information Systems at Bakrie University. I'm highly interested in fullstack web programming. Having experience in creating a fullstack web application, creating an API, and a databases. I am also a passionate and enthusiastic learner, a planner, and a problem solver with consistent high-achieving performances in my academic record. I am also active in campus activities including being an Assistant Lecturer and have a position as a vice president of the Information System Student Association.

### WORK EXPERIENCES

---

#### BAKRIE UNIVERSITY

Sep 2023 – Dec 2023

##### Laboratory Assistant, Algorithms and Programming Course

- Led 10 hands-on sessions spanning 20 hours, with 50 students from the regular class and employee class. Students actively engaged in learning Python and its derivatives such as Numpy, Pandas, Matplotlib, Scipy, Scikit-learn, and TensorFlow.
- Developed comprehensive educational modules covering topics such as Basic Python, Object Oriented Programming in Python, manipulating data with Numpy & Pandas Library, create machine learning with Scikit-learn and TensorFlow.
- Collaborated closely with the Course Lecturer to ensure seamless integration of practical sessions with lecture content and learning objectives. Produced thorough reports detailing student performance and progression for the benefit of course lecturer.

#### BAKRIE UNIVERSITY

Mar 2024 – June 2024

##### Laboratory Assistant, Visual Programming Course

- Led 10 hands-on sessions spanning 20 hours, with 42 students in attendance, fostering the understanding and creating application with Visual Basic Language. Also provided guidance, clarification, and feedback during practical exercises and course materials during and after classes where needed.
- Created extensive educational modules encompassing diverse topics such as Planning Application, Designing Interfaces, Selection Structure, Repetition Structure, Sub and Function Procedure, Array, Sequence Access Files, Object Oriented Programming in Visual Basic, and Integrating application with database.
- Collaborated closely with the Course Lecturer to ensure seamless integration of practical sessions with lecture content and learning objectives. Produced thorough reports detailing student performance and progression for the benefit of course lecturer.

#### BAKRIE UNIVERSITY

Sep 2024 – Dec 2024

##### Laboratory Assistant, Operation System Course

- Led 10 hands-on sessions spanning 20 hours, engaging approximately 90 students in both regular and employee classes to deepen their understanding of Operating Systems concepts and applications.
- Developed comprehensive educational modules covering topics such as Process Management, Threading, Scheduling Algorithms, Memory Management, File Systems, and Virtualization, integrating theoretical and practical aspects.
- Guided students through practical implementation using tools and programming exercises related to Operating Systems, ensuring they could apply their knowledge to real-world scenarios.
- Collaborated closely with the course lecturer to align practical sessions with lecture content.

## **LEMHANNAS PPRA 67**

**Oct 2024**

### **OLAH SISMENAS OPERATOR**

- Selected as one of four operators for OLAH SISMENAS in the LEMHANAS PPRA 67 program.
- Assisted Prof. Dr. Siti Rohajawati, S.Kom., M.Kom., former Head of the Information Systems Program at Universitas Bakrie.
- Played a key role in data processing and system operations to support national resilience analysis.

## **BAKRIE CENTER FOUNDATION**

**Mar 2025 – Jul 2025**

### **IT DEVELOPMENT (FRONTEND DEVELOPER & IT TEAM LEAD)**

- Developed and maintained the frontend of the “Home of Leaders” website using React and Tailwind CSS, ensuring responsive design and cross-browser compatibility.
- Led a team of 2 IT volunteers to plan, build, and deploy new features, coordinate sprints, and conduct code reviews for the “Home of Leaders” portal.
- Served on the organizing committee for the Bakrie Center Foundation National Conference, managing web registration workflows, onsite check-in systems, and real-time technical support.

## **IT DEPARTMENT OF BAKRIE UNIVERSITY**

**Jul 2025 – Present**

### **FRONTEND DEVELOPER**

- Built and maintained the frontend of the “SMART Universitas Bakrie” website using Laravel, HTML, and Bootstrap CSS, focusing on responsive design and cross-browser compatibility.
- Participated in developing technical documentation and Entity Relationship Diagrams (ERD) to support the planning and implementation of key system features.
- Contributed as part of the IT team at Universitas Bakrie, handling online registration workflows, onsite check-in systems, and providing real-time technical support for campus-wide events.

## **PT INDI TEKNOKREASI INTERNASIONAL**

**Aug 2025 – Present**

### **PRODUCT DEVELOPER**

- Created detailed Functional Requirement Documents (FRD) and Product Requirement Documents (PRD) to define system features, user flows, and business logic for client projects.
- Designed and analyzed Software Requirement Specifications (SRS) to ensure clear alignment between stakeholder needs and technical implementation.
- Collaborated closely with engineers through regular technical discussions to translate product ideas into actionable development tasks.
- Conducted comprehensive product testing to identify bugs, evaluate usability, and verify system performance before deployment.
- Contributed to UI/UX design by creating wireframes and prototypes that enhance user experience and maintain design consistency across platforms.

## **BAKRIE UNIVERSITY – Projects** *(documentations and reports available on request)*

### **(i) Shop Cashier Program**

**Mar 2023 – Jun 2023**

- Developed a desktop application using Visual Studio and Visual Basic to create a Cashier Program.
- Ability to design dashboards and data visualization for Reporting.
- Understanding to create DFD, ERD, and UI/UX design.

### **(ii) Rechubpie, Recipe Community Application**

**Oct 2023 – Dec 2023**

- Developed Rechubpie, a Flutter-based recipe community app, facilitating recipe sharing and collaboration among culinary enthusiasts.
- Conducted user research to define features and ensure alignment with user needs.
- Designed system architecture using ERD and DFD to model data entities and flow within the application.
- Implemented intuitive UI/UX design and integrated essential features like recipe search and social sharing.
- Authored comprehensive documentation, detailing project specifications, system design, and development process.

**(iii) Meditrack: Infectious Disease Tracking App**

**Nov 2024**

- Developed for the TSDN competition, this web application utilizes Python and Streamlit to visualize infectious disease spread in Indonesia. It features interactive maps, trend analysis, and predictive insights to support data-driven decision-making in public health management.

**(iv) STYLESYNC: Marketplace Fashion dengan Integrasi AI & AR**

**Nov 2024 – Dec 2024**

- StyleSync is a cutting-edge fashion marketplace that revolutionizes the shopping experience through the integration of Artificial Intelligence (AI) and Augmented Reality (AR). Our platform connects fashion enthusiasts, brands, and independent designers, offering a seamless and personalized shopping journey.

---

## EDUCATION

---

**BAKRIE UNIVERSITY**

**Sep 2022 - Present**

**Bachelor of Information System**

- Current GPA: 3.80
- Organizations joined: Vice President of the Information Systems Student Association.

---

## ORGANIZATIONAL EXPERIENCE

---

**Staff of Academic Department, Information System Student Association – Bakrie University**

**Oct 2023 – Aug 2024**

- Actively involved as a member of HMSI, supporting activities aimed at enhancing students' academic and professional experiences.
- Contributed to social campaigns and fundraising events to support students in academic and extracurricular activities.
- Led the implementation of ScholarSIF, a pre-exam program aimed at assisting students in exam preparation, and was entrusted with the role of facilitator.

**Chief Organizer of the Generator Event Sponsored by Dicoding, Sanbercode, and skillvul**

**Dec 2023 – Mar 2024**

- Led the planning and execution of a seminar on Sentiment Analysis and Machine Learning.
- Coordinated with speakers: Brian Arnesto Sitorus S.Kom, M.Sc (LPDP Awardee, Lecturer) and Cyndy Romarizka S, Si (IT Solution Analyst at Mandiri Bank).
- Managed sponsorships and partnerships with Dicoding, Sanbercode, and Skillvul.
- Successfully attracted participants from various backgrounds, enhancing professional networking opportunities

**Vice President of the Information System Student Association – Bakrie University**

**Aug 2024 – Present**

- Actively involved as a vice president of HMSI, contribute to all work programs of the Information Systems Student Association, all of which aim to improve students academic and creativity.

---

## SKILLS & OTHER

---

### Language Skill

- Indonesia : Native
- English : Fluent

### Interpersonal Skills

- Communication, Public Speaking, Leadership, Teamwork, Critical Thinking, Problem Solving.

### Technical Skills

- Javascript, React, Tailwind CSS, Bootstrap, Laravel.

### Achievement

- [Runner Up Mahasiswa Terbaik Program Studi Sistem Informasi Universitas Bakrie](#)
- [Finalist Bakrie Entrepreneur Competition Certificate](#)

### Certificate:

- [Udemy Laravel Fullstack Course Certificate](#)
- [Udemy Django Fullstack Course Certificate](#)
- [Udemy Frontend HTML, CSS, JS Course Certificate](#)

### Interpersonal Skills

- Communication, Public Speaking, Leadership, Teamwork, Critical Thinking, Problem Solving.
